

Dräger HPS® 4500 Head Protection System

The Dräger HPS® 4500 is a traditional half-shell helmet with a modern design. Its robust outer shell provides you with excellent protection against impact and extreme heat. With a modern visor design, the helmet has superior wearer comfort due to ergonomic and lightweight internal components. A comprehensive range of accessories make our solution a truly versatile helmet across a variety of applications.

Benefits

Hard shell

The outer shell is characterised by a robust and resistant design. The combination of high-temperature-resistant Duroplast and latest aramid fabrics protects you both against falling debris and the heat of naked flames. The outer shell, pressed using a special method (SMC* method) provides the HPS® 4500 with exceptional stability. At the same time it is one of the lightest helmets of its class and meets the requirements of the new standard EN 443:2008 – type A (half shell).

High wearing comfort and easy operation

The HPS 4500 features modern and comfortable internal helmet components. The 4-point harness can be adjusted both in the neck area as well as in the temple area via a simple tensioning system. The convenient adjusting wheel allows you to adjust the fit of the helmet even with thick gloves. The integrated hair net allows for height adjustment, and at the same time, ensures a comfortable cool climate inside the helmet. The harness made of fire-resistant Nomex®/aramid fabric and the sweatband made of eco-leather are washable using common detergents.

Heat and scratch resistant visor

The large visor of the HPS 4500 reaches down to the chin area. It is made of thermally high-resistant Polyphenylsulfon material and therefore suitable for interior fire fighting. The visor is approved according to EN 14458 and classified as “face guard”. Therefore the visor provides the greatest possible protection without any interference in your field of vision. The visor has anti-scratch coating on both sides.

Comprehensive accessories for every challenge.

Dräger offers you a wide range of accessories for the most varied applications during fire fighting. You can optimize and individualize your helmet to these various challenges by choosing between numerous versions of neck guards, face protections, helmet lamps and communication systems – all of which can be quickly and easily attached to the HPS 4500.

* SMC (Sheet Molding Compound) – Duroplast, reinforced with aramid fibre cloths; for a higher performance of the entire helmet.

Nomex® is a registered trademark of DuPont.

Parasnap® is a registered trademark of Parat.

Accessories

ST-13375-2008

Neck guard Aluminium/Nomex®

Aluminium-coated with back made of Nomex® III.

ST-13374-2008

Neck guard Nomex® long, Belgium version

Four-layer, highquality Nomex®/Aramid fabric, anti-static, specifically for inside attack, resistant to many acids and bases.

ST-13376-2008

Neck guard Wool long, Dutch-type

100% wool, oil- and waterrepellant, flame-retardant, edged at bottom with Nomex® III.

ST-13373-2008

Neck guard Nomex® short

Short and tight, Nomex® with fluorcarbon.

Accessories

D-15175-2010

Neck guard Nomex® long, Dutch-type

Three-layer highquality Nomex® fabric.

D-12259-2009

Neck guard Leather

Good mechanical protection against embers, ash, etc.

D-38000-2015

PPSU (Polyphenylsulfon) visors

Approved in accordance with EN 14458 and in combination with HPS® 4500 approved in accordance with EN 443:2008. High temperature resistant and therefore suitable for inner attacks.

D-38001-2015

PC (polycarbonate) visors

Approved in accordance with EN 14458 and in combination with HPS® 4500 for technical rescues in accordance with EN 443:2008.

Accessories

ST-13367-2008

Metal mesh visor

To protect the eyes against flying shavings, e.g. when working with wood, approved in accordance with EN 1731.

ST-13366-2008

Electro visor

To protect eyes against electric arcs when working in electric installations carrying heavy currents, approved in accordance with EN 166 and EN 172.

D-43009-2012

Safety goggles

With elastic strap in Pinlock®-technology, antifog coating, approved in accordance with EN 166 / EN 14458.

D-12132-2016

Retaining clip for safety goggles

Mounting system for secure fixation of goggles on the helmet shell

Accessories

D-1131-2010

Helmet lamp Dräger PX 1 LED

High-performance helmet lamp with Ex-approval and long-life LED technology.

D-37243-2015

Helmet lamp Dräger PX2 LED

High-performance lamp with new LED technology.

D-2252-2015

Universal lamp holder, base

Base part mounted on the helmet for inserting the tabs of the Parasnap® lamp connection or the universal lamp holder for large or small lamps

D-37234-2015

Parasnap® helmet attachment for PX1 and PX2 lampholders

Easy and self-explaining lamp adaption with patented Parasnap® magnetic adaption.

Accessories

D-37240-2015

Lampholder for Dräger PX1 lamps – Dräger HPS® 4500

Made of high-temperature resistant plastic.

D-37242-2015

Lampholder for Dräger PX2 lamps

Made of high-temperature resistant plastic.

D-30481-2017

Universal lamp holder

Plug-in adapter for small round shaped lamps (e.g. PX 2) and for large oval shaped lamps (e.g. PX 1). The swivel joint allows swiveling of the helmet lamp in almost any direction.

ST-15182-2008

Adapter ring for Savox-Coms

For adapting a communication system.

Accessories

Hearing protection – Ear muffs

To wear under the helmet.
Approved according to EN 352.

Helmet bag

The helmet bag provides protection during transport, has an inner compartment and a business card pocket. It is made of polyester fabric, is padded with velour and has a reinforced base. The carrying bag is available in two sizes: large for two helmets and accessories or small for one helmet and accessories. The small bag also comes with a removable, adjustable shoulder strap.
